To Set Your Own Combination:

Step 1:

Enter the factory preset combination at 0-0-0-0 to pull out the shackle.

Step 2:

Rotate the shackle 90° counter clockwise and firmly press down.

Step 3:

Hold the shackle and set the dial to your personal combination.

Step 4:

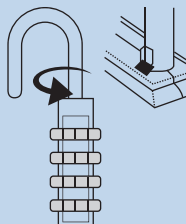

Let the shackle go and return the lock into its closed position. The lock will now open to your personal combination.

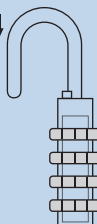

To change simply repeat the procedure substituting your personal combination in step 1. Record your combination in a safe and accessible place for future reference. Keep these instructions for future reference.
